

COMMISSION SEEKS COMMENT ON CLASSIFYING INTERNET PROTOCOL TELECOMMUNICATIONS
RELAY SERVICE CALLS AS INTRASTATE OR INTERSTATE FOR COMPENSATION

CC Docket No. 98-67

To Whom It May Concern,

I am writing to express my support having the IP Relay to be qualified to obtain funding from the Interstate TRS fund. The IP relay is convenient to my need because in light that there are some offices, buildings, and other places out in there that does not have TTY access. The internet access IP relay provide me an alternative way to place my telephone calls. I would also want for the IP relay to maintain its operation because it is beneficial - not only to me but many other people who uses Internet heavily.

Cordially Yours,

Chad A. Ludwig
